

Sales for the mobile professional

SalesNOW is a contact, activity, and deal management tool specifically designed for the BlackBerry. Highly mobile individuals can track contacts, companies, deals, activities, and email all from one tool. Everything is automatically synchronized to a secure website, so you can access all customer and prospect data from your BlackBerry or Internet no matter where you are!

1. Manage Contacts

- ◆ Store contact info, send emails, make phone calls, get Google maps
- ◆ Sync BlackBerry contacts to SalesNOW easily

2. Track Activities & Email

- ◆ Associate call logs, tasks, and emails to deals for quick history retrieval
- ◆ Easily move emails from your inbox to SalesNOW for better organization

3. Manage Deals

- ◆ Track sales details, progress and next steps on deals
- ◆ Manage your sales pipeline while on the road

4. Access via BlackBerry or Internet

- ◆ Use the Internet version to access all the same information while at home
- ◆ View graphs on the BlackBerry & export custom activity reports to Excel

5. Share across your team with SalesNOW Team Edition

- ◆ Selectively share contacts, activities, and deals with your team
- ◆ Rollup activity & forecast reports for team members
